DupleColor
Blue / Green

Patented technology

DupleColor
MV

DupleColor C+

- combination of carbon black (D&C Black 2) with titanium dioxide leads to exciting opaque colours
- various shades of lush, even colours
- exceptional hiding power

INCI: Synthetic Fluorphlogopite, Titanium Dioxide, Black 2, Tin Oxide, Triethoxycaprylylsilane

DupleColor MV

- Surface coated by Manganese Violet and Titanium Dioxide

INCI: Synthetic Fluorophlogopite, Titanium Dioxide, Manganese Violet, Aluminium Oxide, Tin Oxide, Triethoxycaprylylsilane

DupleColor Blue / Green

- bright bluish lustre using Vossen Blau as the colour pigment
- various intense greenish shades with combination of Vossen Blau and yellow iron oxide

INCI: Synthetic Fluorophlogopite, Titanium Dioxide, Ferric Ferrocyanide, Iron Oxides/77492, Tin Oxide, Triethoxycaprylsilane

DupleColor Coral

- rich, intense reddish to orange shades
- for all kinds of deco cosmetics and lipsticks

INCI: Synthetic Fluorophlogopite, Titanium Dioxide, Iron Oxides/77491, FD & C Red40, Silica, Tin Oxide, Triethoxycaprylylsilane

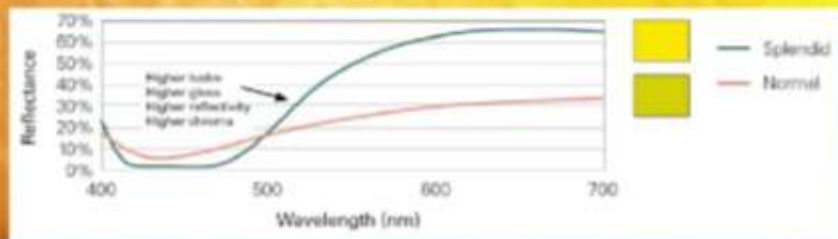

Splendid

Sparkling effects based on novel concept

- Small particle size leads to smooth surface with soft feeling
- Very strong sparkling effect despite small particle size
- Computer aided colour design
- Novel coating method

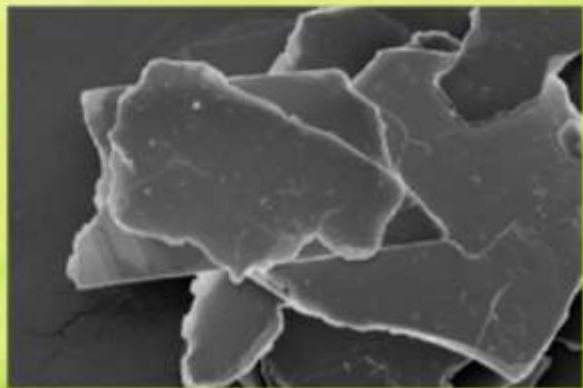

INCI: Synthetic Fluorophlogopite, Titanium Dioxide, Ferric Ferrocyanide, Ultramarine, Iron Oxides/77492, Iron Oxides/77491, Black 2, Silica, Tin Oxide, Triethoxycaprylsilane

Contextural

Multi Colour Flop Effects

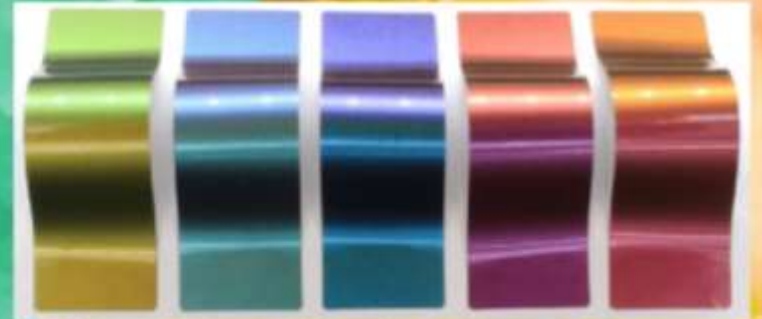

- Optical Variable Pigments
- Outstanding colour flow effects
- Good skin sensory effects

- Patented Recoating layer for superior colour coverage
- Patented Multilayers of materials with specific thickness and refractive index, to achieve angle-dependant effects
- Customized Substrate of tailor-made size, aspect ratio and surface smoothness, to provide good skin sensory

INCI: Synthetic Fluorhlogopite, Titanium Dioxide, Ferric Ferrocyanide, Ultramarine, Iron Oxides/77492, Iron Oxides/77491, Black 2, Silica, Tin Oxide, Triethoxycaprylsilane

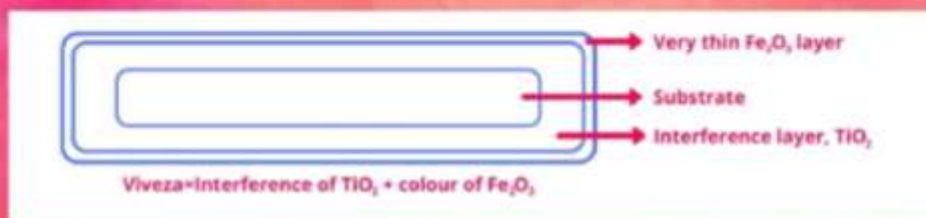

Viveza

Carmine-free Purely Based on Inorganic Pigments

- No animal ingredient (Vegan)
- Recommended for lipstick and eye shadow
- Different shades of red

INCI: Synthetic Fluorophlogopite, Calcium Sodium Borosilicate, Titanium Dioxide, Iron Oxides/77491, Tin Oxide

ColorMica Black8 S0115

**Nano-free Intense,
Deep Black Pigment**

- Deep, intense black colour
- Patent pending technology: dispersed nano-particles encapsulated in a resin-free aqueous system
- Small particle size (1-15 μm)
- Perfect for mascara and eyeliner formulations

**INCI: Black 2 (And) Titanium Dioxide (And)
Synthetic Fluorophlogopite**

Thank you for taking a stroll with us
through our secret color garden.

We'd be happy to talk to you
for more information, samples or
demo kits.

Come and visit our stand for more
details!
