

4. SAFETY

The safety of BICOHAIR® HP has been evaluated through the analysis of the toxicity data of its components and corresponding assessment:

- **Skin Irritation:** Not classified as skin corrosive/irritant, based on available data from components.
- **Ocular Irritation:** Not classified as eye irritant, based on available data from components.
- **Sensitizing potential:** Not classified as skin sensitizer, based on available in-vitro and in-vivo data from components.

Additional information is available upon request.
